*Discover life with new flooring*

Today's construction world has grown with upcoming technology. The requirements on the quality of road, basement, stilt parking area and industrial floors have become more demanding during the last few years. High quality concrete floors require not only to be leveled but it should have high wear resistance, high compressive strength, reduce shrinkage, minimum water permeability and minimum dusting.

**MANIKCHAND CONCRETE FLOOR** incorporates the technical aspects of this fine process, new concepts & give you the 'real thing'.

### TREMIX

The vacuum dewatering system **TREMIX** is for laying high quality concrete floors where the cost being very economical. The compressive strength of vacuum treated concrete at the age of 28 days is 40 to 60% higher than that for normal concrete.

**Vacuum dewatering process** removes surplus water always present in the concrete. This is done using the Vaccum Equipment comprising of Suction Mat Top Cover, Filter pads and Vaccum Pump. The process starts immediately after surface vibration.

### FLOOR HARDENER

**Floor Hardener** has been specially formulated with a non-rusting aggregate for increased abrasion resistance. It provides a high strength wearing surface in areas subject to constant or Frequently wet conditions without oxidizing.

#### Features/Benefits

- Gives up to 6 times the abrasion resistance of plain, cured concrete.
- Iron aggregate is free of rust, oil, or other contaminants.
- Dense surface resists penetration of oil, grease, and many other liquids.
- Virtually non-dusting in service.
- Easy to clean and maintain

### STAMP CONCRETE

**Stampcrete System** is cast-in-place concrete, integrally colored and stamped with texturing tools to produce a surface similar to natural stone, brick, slate and other paving materials.

Stampcrete Color Hardener is specially formulated to be easily incorporated into the durable, abrasion-resistant surfaces, which offer streak-free vibrant colors, providing an attractive and long-lasting finish for any type of traffic. Stampcrete hardeners are longer wearing, easier to maintain, and more resistant to the effects of freeze/thaw cycles and salts.

Textured surfaces may be implemented with this system to give authentic appearance variations wherever applicable.

### FEW OF OUR CLIENTS LIST

- Wadhwa Group
- Dheeraj Group
- Soham Group
- Vijay Group
- Rajesh Lifespaces
- Reliance
- Radius Developer
- Oberoi Realty
- Cosmos Group
- D.B.Realty
- Joy Builders & Developers
- Damji Shamji Shah Group.
- Kalpataru Ltd
- Marathon Realty
- Indian Oil
- Ashwini Infra
- Ajmera Group

- Adhiraj Construction Pvt. Ltd.
- Transcon
